

# Specialist Support for Veterinary Professionals on all financial & business matters

Whether you're a large or small practice, referral practice, or an equine or farming specialist, we can help.

With the Veterinary industry facing new challenges – such as growing corporate entities, cost pressure from improved technology, and pet owners expectations continuing to rise with competitive prices – sector specific advice is vital.

With many years' experience working with veterinary professionals, we offer private client and financial services designed to meet all your needs throughout your professional career – from locum to business start-up to practice growth, and on to pension and succession planning.

Our expert team can help prepare your annual accounts, tax returns and payroll, and offer advice on business strategy and development, VAT, employment law, incorporation into LLP or limited company, and benchmarking. We can also help you with tax planning and compliance, pension planning and wealth management.

Price Bailey is a top 25 accountancy and business advisory firm offering vast experience and quality of service to the veterinary sector. We have years of experience working with Veterinary Professionals, and are dedicated to offering you the right level of specialist support to enable you to concentrate on the things that really matter to your patients.

We regularly work closely with the Veterinary Business Journal and Equine Health publications and attend the London Vet Show.
